

# THE BLAIRMORE ENTERPRISE

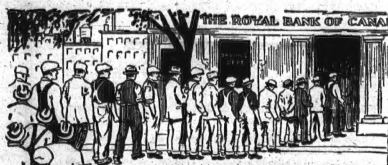

VOL. XVII., NO. 27.

THE BLAIRMORE ENTERPRISE.

THURSDAY, JULY 8, 1926.

Jack Coughlin and Miss Walker had a very narrow escape from being killed, while enroute by motor from Calgary to Blairmore, when, near Macleod, they lost control of the brakes and the car was hurled up the down into a ditch. Miss Walker escaped uninjured, while Jack sustained a few slight bruises. The car was badly damaged and had to be left behind.

## When Pay Day Comes

THE first claim you should meet on pay day is your savings. In time of sickness or unemployment, your money is your best friend—if you have saved it.

There comes a time for all of us when ability to earn must cease. Your accumulated savings must then take the place of your present earning power.

Ask for a copy of our booklet, "The Measure of Your Income." You will find it useful.

S. J. Lamey, Manager

## DOGS MAY BE DEPORTED

The regular meeting of the Blairmore Town Council was held on Monday night and was attended by Mayor Farmer, Councillors Morgan, Gillis, Sartoris, Ferguson, Hays and Patterson and Secretary Kelly.

The minutes of previous meeting were approved as read and a few small accounts were passed for payment, subject to approval by committees.

The question in dispute between the town and Messrs. Beebe and A. Stevenson over property alleged to have been purchased by the latter from Beebe while title was in possession of the town, was allowed to stand over. The matter is already under litigation.

Council granted \$20.00 towards paying rent of opera house for the Lethbridge miners' picnic.

Most of the session was taken up in considering petitions from ratepayers, one of which was raised by S. Turner against the location of the Heritage Bros' circus near his home on the north side, etc.

Another protest was entered against the rapid increase of canines and the particular annoyance created by several members of that fraternity. Some names were mentioned, such as Chip, Spot, Dolly, Polly, Pat, Sport, Unruly, etc., but as personalities were ruled out by the mayor, the council was obliged to consider the complaints collectively. Some of the particular offenders whose landlords or caretakers are of foreign nationality, may be ordered deported unless the owners decide to hush them up by paying the usual license fee at once. One member of the council expressed his candid opinion that a dog license has never yet had the effect of preventing the dog from barking.

## CORONER'S INQUEST INTO DEATH OF MARTIN PEROZAK

The coroner's enquiry into the death of Martin Perozak, of Bellevue, who was killed by a train at the Frank crossing on July 1st, was held in the local court house on Monday afternoon, after being adjourned from Friday last.

Mr. J. H. Robertson, of Bellevue, coroner, presided at the enquiry, while the jury consisted of the following: R. G. Post, foreman, T. Brewer, W. A. Beebe, A. I. Blais, J. H. Naylor and J. B. Harmer.

After hearing the evidence of the members of the train crew and the driver of the car in which the late Mr. Perozak was riding, the following verdict was given.

"That Martin Perozak came to his death on Thursday, July 1st, 1926, at the railroad crossing at Frank by being pinched between the rear wheel of the tender and the track, when the car in which he was riding ran into engine No. 5601 which was backing down from the coal chute to the train which was standing on the east side of the crossing. We exonerate the train crew from any blame in the accident. We further find that the driver of the automobile showed negligence in driving when trying to cross the tracks as a train was approaching."

Sergt. Duncan conducted the enquiry for the crown, while D. G. Mackenzie, of Gillis & Mackenzie, Blairmore, acted on behalf of Mrs. Perozak. A representative of the C.P.R. was in attendance.

Martin Perozak was the owner and proprietor of the Union Meat Market at Bellevue and had been a resident there for a number of years. He was very well known and highly respected and his loss is seriously felt. He is survived by a wife and four small children.

Funeral took place on Sunday afternoon last and was very largely attended. The remains were laid to rest in Blairmore cemetery.

## SALARIES BUT SLIGHTLY ADJUSTED

At a special meeting of the school board on Friday night last, the salaries question was given consideration. As stated in our last issue, eleven of the thirteen teachers had signified their willingness to return to Blairmore for the fall term, provided they receive salary increases of \$100 and upwards. These were taken up individually on Friday night and dealt with.

The secretary was instructed to notify Mr. Muncester that the board could take no action in connection with his application until results of the examinations were at hand, which would probably be on towards the first of August.

Secretary was instructed to notify Mr. Rothney to effect that his work had been satisfactory and that his application for increase would be given favorable consideration at a later date; also that the board may find it necessary to appoint him in charge of an additional high school room, or Grade VIII, which position would carry with it larger salary.

Misses Hyson, Cox and Mooney were to be notified that their work had been considered satisfactory and that the board would allow them \$50 increase for the coming year.

Misses Fitzgerald, Crystal, McDonald, Hall and Lyndon and Mrs. Mack Sloy were notified that their work was satisfactory but that no salary increase would be allowed.

The board reimbursed Mrs. Nicholson to the extent of \$12.75, being amount paid for school books, etc., for her orphan children during the past year. The Nicholson children will in future be supplied with necessary books, etc., free.

Secretary had written other school districts to find as to whether or not a practice was being made of paying an extra fee to presiding examiner in connection with the departmental examinations, and it was found that only in the case of an exchange was an extra fee paid. Therefore the board decided not to pay extra to their presiding examiner this year. For several years past an extra fee, amounting to \$50 or upwards, had been paid here.

Moved by Capt. Beebe, that any new contracts that may be entered into shall contain the following clause: "If this agreement is in force June 30th of the following year, it then terminates without notice to or by either party." Carried.

Secretary informed the board that the assessment roll for 1926 was now complete, and it was moved by Capt. W. A. Beebe, that the board sit as a court of revision in the office of the secretary-treasurer on Thursday, August 12th, at 4 p.m., and that notices to this effect be posted. Carried.

## OKANAGAN LAKE SERVICE

Announcement is made of the opening by the Canadian National Railways of a steamship service between Kelowna and Penticton, on the Okanagan lake. A new steamship, the Pentowna, will make two trips each way daily, except Sunday, starting July 15th. This extends the passenger service which was put into operation with the completion some months ago of the new Canadian National line between Kamloops and Kelowna and gives a complete service from Penticton connecting with the Continental Limited east and west from Kamloops.

J. W. Gresham, police magistrate, went to Calgary by Monday night's train to spend a week or so in camp at Sarcee.

attended. The remains were laid to rest in Blairmore cemetery.

## REV. H. LAURENCE NOBBS CALLED TO DRUMHELLER

The Rev. J. T. Smith, rector of St. Marguerite's Church of England, has tendered his resignation and will, we understand, take over the rectorship of the English church at Strathmore. Mr. Smith came to Drumheller last year from the parish at Castor, where he had been rector for several years.

As a result of his resignation, a congregational meeting was called Sunday evening last after the service, to consider what steps should be taken in the way of appointing a successor to the Rev. J. T. Smith. It was finally decided to ask a former Drumheller worker in the mission field, Rev. H. Nobbs, now at Coleman, to accept the vacancy, which it is anticipated he will, as he has many friends in the Drum-

## INTERNATIONAL TEAM WINS

The first and competitions at Coleman on July 1st proved very interesting. A large number of teams entered and competition was keen.

The results were as follows: International team, first; Blairmore No. 2, second; McGillivray, third.

Junior Class—Bellevue No. 1-R, first; Coleman No. 1, second; Coleman No. 2, third.

B. Class—Blairmore, first; Bellevue, second.

heller community.—Drumheller Review.

We understand that Mr. Nobbs has accepted the call to Drumheller and leaves for his new parish at the end of July. Mr. Nobbs has been a zealous worker since coming to the Coleman and Blairmore parishes and will be keenly missed.

## Holiday In Canada

Taking a holiday is "good business," provided the holiday is spent in a sane, sensible manner and largely out of doors. Such a holiday is likewise a form of Good Health Insurance. Money spent in a vacation in the open will prove a good investment and return handsome dividends in enthusiasm, increased energy to put into one's life work, and re-awakened energy and interest in life and all its manifold activities.

To the full extent possible people should spend the summer months in the open. Fresh air and sunshine are the best doctors in the world. They are doctors of preventive medicine and make no charge for their services which are free to all, and rich and poor alike. Summer holidays, to be most beneficial, should not be spent in visiting crowded cities, but in the woods, beside lakes, rivers and the sea, among the mountains—in a word, near to Nature's heart.

And no country in the world surpasses Canada as the ideal land for a summer vacation. People, who can afford to do so, may flock to tropical countries during severe winter weather, or enjoy winter sports such as are provided in Switzerland and the Alps. But for a more enjoyable and healthful invigorating summer holiday, no country surpasses and few can equal our own Dominion.

In the variety and beauty of its offerings, Nature was most prodigal in its treatment of Canada. Nor did she confine her gifts to any one Province or section of the Dominion, but with lavish hand distributed bounties on all. There is something to appeal to every taste and inclination of the human race.

Furthermore, probably in no other country can a vacation be enjoyed at less expense than in Canada. For a real holiday a person needs a complete change of scene and an entirely different environment to that in which ten or eleven workday months are spent. In many of the older and thickly populated lands this is difficult to obtain without travelling long distances and at a cost beyond the means of the average person. But in Canada such a change is possible in a few hours journey with its great wealth of rivers, lakes, mountains, woods and seashores. Canada still remains a land of romance, a sportsman's paradise, with abundant natural beauty to inspire the poet, the artist, the lover of the wild. And these things are available to Canadians within the bounds of their respective Provinces.

But the dweller on the prairies or the West can at small expense obtain the greatest of all changes in his environment by spending his or her holiday in the Rockies, or journey a little further and bask among the beauties of Nature along the Pacific coast, or proceed eastward to the Great Lakes. People of Ontario and Quebec might well with advantage to themselves, and in real service to a more united and understood Canada, take a holiday among the people of the other Provinces, while the holidaying citizens of these two Provinces and the Maritimes could with pleasure and profit interchange visits.

If Canada lacked in providing scenes of Nature's beauty, or if these spots were few and far between and therefore difficult and expensive of access, there would be some excuse for Canadians not holidaying at home and learning more of their great Dominion, but, as already noted, this country takes second place to none as a place in which to enjoy Nature at its best, and in which to recuperate in mind and body, forget one's business worries and responsibilities, and restore worn out and jangled nerves.

Canadians, of course, must not be narrow, provincial people. They should know the world, and to know other countries and peoples it is necessary to travel. But half the enjoyment and more than half of the advantages to be derived from foreign travel is found in first having the fullest possible knowledge of one's own country. "See Canada First" is, therefore, not only a telling slogan but good advice to all Canadians.

And while not disparaging the beauties and exhilaration of Canada's winter, it is none the less true that the summer vacation months offer the best time in which to visit all parts of the Dominion and learn of its beauties, its resources, its grandeur, its transcendent possibilities.

## Purchases Exceed Sales

Russia Buys More From Great Britain Than She Sells

The council of the Russo-British Chamber of Commerce has published figures tending to show a steady increase in trade between Great Britain and Russia.

The goods are given as from £15,000,000 in 1922 to £53,000,000 in 1925. The report says Russian purchases from Great Britain slightly exceeded Russian sales in the British market. The latter consists almost entirely of foodstuffs and raw material, while the Russian purchases are largely machinery, tools, textiles and other manufactured goods.

The council points out that the entire business has been conducted on a credit basis and says it is not aware of any case in which the Russian organizations have failed to carry out their obligations.

Statistics enable a man to prove anything except the truth of the figures.

## Better Gasoline Promised

May Mean Increased Efficiency and Economy in Automobile Operation

Increased efficiency and economy in automobile operation are forecast by government experts as the result of recent motor fuel studies by T. S. Sileh, of the U.S. bureau of standards. The simplicity of the Sileh test is claimed to make it possible for refinery supervisors, by an easy graduation of oils under refinement, to produce without elaborate manipulation and increased expense, a "standard" gasoline meeting the specifications and giving the public more efficient, uniform, dependable gas without increase in price.

**Recuperative Powers Of Fish**  
Frozen Solid By Liquid Air Will Revive In Water

An audience in New York was treated to the other night to an exhibition of the recuperative power of fish under injury by extreme cold. Professor Estabrook, of City College, transferred from a bowl of water into a jar of liquid air, two goldfish. Upon removing them from the jar, one was shattered into brittle fragments by a hammer. The other, returned to the water, soon swam about naturally.

**Poland Not Leaving League**  
Reports in Geneva that Poland was considering withdrawing from the League of Nations unless her demand for a permanent seat in the League Council is satisfied, were denied by Auguste Zeleski, foreign minister.

Some men are willing to pay cash for everything except their debts.

## Hindus Worship Midnight Sun

Pilgrimage Will Be Made To Norway Every Year

In the pale mystic rays of the midnight sun at North Cape, Norway, which jut out into the Arctic Ocean as the northernmost point of Europe, a small party of high caste orthodox Hindus recently worshipped their deity through the symbol of the ever-shining sun which, to the Hindu believers, represents the physical glory of their deity, the spiritual sun.

The party of worshippers consisted of Rai Gopaladas, son of the Hon. Rai Ramasaran Das of Lahore, British India, and Pandit Nagadash Chatterji, a high caste Brahmin, former director of Oriental research at Kashmir and once head of the ecclesiastical administration of the Gokwar of Haridwar.

It is the intention of the Hindus to arrange for a similar pilgrimage to North Cape each year.

## Pain in the Back Yields to Nerviline

If you have failed to secure relief from other remedies, rub on lots of good old "Nerviline," the strongest, most penetrating pain relief on the market. Nerviline acts quickly on small pains and is the surest to drive out the big ones. It's because every drop of Nerviline rubs in, because it has the ability to sink in deeply that it drives out pain that ordinary Liniments won't touch. Large 25c bottles at all dealers.

**Are Commercially Valuable**

A company with a capital of nearly a quarter of a million dollars has been formed for the purpose of catching sharks and exploiting them commercially. Sharks yield hide for boots and shoes, oil, meat, fertilizers, animal fodder, edible fins for the Chinese market, glue, insulating substances, eye and polishing materials.

## WEAK AND NERVOUS

A Condition Due to Watery Blood — Easily Corrected Through the Use of Dr. Williams' Pink Pills.

Thin, pale girls lack the power of resistance to diseases that rich, red blood gives. Nervous breakdowns are the result of this blood. So is indigestion, headache, backaches and mother troubles. Girls suffering from this impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McClellan, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and two months later I was feeling much better. I had no more nervous attacks, and I was able to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or mail order at 25c a box from Dr. Williams Medicine Co., Brockville, Ont.

**Will Attack Icebergs**  
Professor Barnes, of McGill University, has left Montreal for Newfoundland, where he will conduct experiments in attacking icebergs with thermite. Prof. Barnes, last winter worked with thermite on the Allegheny River blockade.

**TEETHING BABIES DIE EVERY SUMMER**  
Thousands of them

The hot weather is very hard on babies starting to cut their teeth. On the first sign of any looseness of the bowels the mother should give a few doses of

**D'FOWLER'S EXT-OF WILD STRAWBERRY**

This will quickly offset the diarrhoea, vomiting and purging, and, perhaps, save the baby's life. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

**Man Repaired Flag Poles in South Africa Preceding Visit of Prince**  
Hubert Kirkland, a South African, found his profession of stock-jack at a discount when the Prince of Wales decided to visit South Africa in 1921. Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagpoles, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make London.

He had now arrived in London from America after holidaying profitably and hilariously in Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Even if the meek do inherit the earth in accordance with the ancient prophecy, they'll still have the traffic cops to contend with.

Minard's Liniment for Sore Feet

## Find Magnificent Temple in East

Discovery in Indo-China Made By French School of Excavation

A magnificent temple, dating back to the early fourteenth century, has been discovered by the French School of Excavation, in the Far East, now working in Indo-China. The temple is described as the finest example of the art of that period yet seen, and the inscriptions upon it throw considerable light upon history.

Experts of the school have just reported to the Institute in France that the temple is near Angkor Thom, and that other buildings of the same age probably will be uncovered in the vast forests north of the present excavations. These forests will be explored this year.

Another remarkable discovery was reported to the Institute from the province of Tani Hu, Indo-China, where several Chinese tombs were unearthed, but not a single bone found. Precious objects in bronze and other metal were discovered.

## Comparison By Tonnage

Only Way to Judge Naval Armaments Says France

France has proposed to the disarmament experts meeting at Geneva that the only way of comparing the naval armaments of the various countries is by total naval tonnage. This raises the question of the effect adoption of the French thesis would have on the Washington naval agreement.

The significance of the French-Italian initiative is that both countries seek liberty to strengthen their submarine and cruiser forces which they deem impossible to their national defence than battleships. Both United States and British delegates are hoping that the global tonnage conception will not interfere with the Washington accord. They believe that the sales of capital ships established at Washington could remain the nucleus of such a tonnage programme.

## Woman Will Attempt Flight Across Pole

French Actress Announces Intention To Try Trip This Summer

For years men have been seeking to locate the North Pole, and now the curiosity and itch for publicity has inspired a few of the other sex to dare the cold of the frozen lands. Miss Ida Rubenstein, a French actress, has announced her intention of flying across the pole this summer. In New York, another woman intends to gratify her craving for fresh experiences and accompanying Macklin's Polar party. Miss Maude B. Fisher, the aspirant for fame, is a graduate of Barnard College, and an athlete. "The quest for the unknown overshadows all fear," said Miss Fisher.

## American Farmers Co-operative

Four States Form Latest Pool to Market Wheat

Thousands of farmers in Kansas, Oklahoma, Nebraska and Colorado will market their 1925 crop co-operatively this fall and winter.

State selling units in these states have combined their membership and resources into the Southwest Co-operative Wheat Growers' Association, which will act as the selling agency. The organization has taken over the sales equipment of the Kansas pool, which includes a 400,000-bushel terminal elevator in Leavenworth and another of 1,000,000 bushels at Kansas.

It is planned to obtain control of wheat, store it in the terminal elevators and slowly feed it into the market.

Whether the corn be old or new growth, it must yield to Holloway's Corn Remover.

## Netted Small Fortune

Man Repaired Flag Poles in South Africa Preceding Visit of Prince

Hubert Kirkland, a South African, found his profession of stock-jack at a discount when the Prince of Wales decided to visit South Africa in 1921. Kirkland seized the idea of touring the provinces according to the Prince's itinerary, repairing flagpoles, adjusting pulleys, threading new ropes and mending bunting. He kept a good three months ahead of the Prince, returned to Durban with a small fortune and determined to make London.

He had now arrived in London from America after holidaying profitably and hilariously in Australia and New Zealand, the Pacific Islands, India, the Straits Settlements and Canada. Kirkland would only smile shrewdly when asked what his flagpole work netted him.

Even if the meek do inherit the earth in accordance with the ancient prophecy, they'll still have the traffic cops to contend with.

Minard's Liniment for Sore Feet

## Fly-Flit-Flop!

FLIES breed in filth, feed on filth and bring filth into your home.

Flit spray cleans your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use.

## Kills All Household Insects

Flit spray also destroys bed bugs, roaches and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly. Get a Flit can and spray today.

**STANDARD OIL CO. (NEW JERSEY)**  
Distributed in Canada by Fred J. Whitlow & Co., Toronto.

## Was Decorated For Gallantry

A Story of the War With An Amusing Element

In the debate in the British Commons on the abolition of the death penalty for army deserters in wartime, Mr. R. Morrison told the following experience of a friend of his during the Great War:

"While on outpost duty this friend was the sergeant in command of a party of four men who were sent out without food or ammunition. They eventually decided to try to find their way into the German lines."

"On the way they came face to face with a German N.C.O. and six men. Both parties held up their hands simultaneously. The German N.C.O. was able to speak English and they discussed whether it would be safer for the Germans to surrender to the British and for both to try to reach the British lines or vice-versa.

"As the British artillery barrage was the more severe, they eventually decided to try to reach the British lines. They were successful, and Mr. Morrison concluded by announcing that his friend was eventually decorated for his gallantry in retreating his post and capturing a German N.C.O. and six men."

Somewhere in this story there is a moral—"The Passing World," in the Free Press.

Miller's Worm Powders act mildly and without injury to the child, and there can be no doubt of their deadly effect upon worms. They have been in successful use for a long time and are recognized as a leading preparation for the purpose. They have proved their power in numerous cases and have given relief to many children, who, but for the good offices of this compound, would have continued weak and enfeebled.

Judgment Creditor (at the Bow County Court): The defendant has a dying business. Defendant: A dying business? I did have, but it is dead.

## Women's Empire Settlement

Canada's Supply of Educated Lady Workers is Sufficient

The British Commonwealth Union, after a discussion of the position of women's empire settlement, have adopted a resolution calling on the Dominion Governments to employ an adequate number of women in salaried and voluntary positions in all schemes of migration.

J. Bruce Walker, director of European immigration for the Canadian Government, pointed out that, while there was no limit to the demand for women domestic servants in Canada, he did not advise educated women to go there with the object of entering professions, as Canada was already supplying her own needs so far as educated workers were concerned.

**Dust Causes Asthma.** Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness.

**Plan Gas Attack, Memorial**  
Survivors of the first gas attack by Germany on the Yser front, April 22, 1915, have taken steps that a monument be erected to those who were killed by the stifling fumes. The Duchess of Vendome heads a committee which has started the collection of funds for the monument.

"My client is not mentally normal. The fact that he murdered his wife is partly a proof of that, but the fact that he married again is conclusive."

Minard's Liniment for all pains  
Of all the disagreeable dials known to mankind, the bill-collecting dial is about the worst.

## Children Cry for

**MOTHER—Fletcher's Castoria** is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep.

To avoid imitations, always look for the signature of **Fletcher's** Absolutely Harmless—No Opium. Physicians everywhere recommend it.

## THE DISSOLUTION OF PARLIAMENT IS ANNOUNCED

Ottawa.—Parliament has been dissolved and there will therefore be no further sittings of the House of Commons.

It is expected that following dissolution of parliament, Right Hon. Arthur Meighen will now proceed with the constitution of his cabinet.

J. D. Chaplain, of Lincoln, and E. B. Ryckman, from Toronto, are mentioned as cabinet possibilities. Hon. Dr. Tominic and Hon. Robert Rogers are also understood to be cabinet probabilities.

The dissolution of parliament caught members by surprise. Though there had been rumors that dissolution was imminent, it was not expected that the end would come before the remaining business of the house had been disposed of. As it is, dissolution comes with legislation still waiting on the order paper. Among such legislation is the Campbell bill to amend the Grain Act. This was amended in the senate but amendments failed to have the approval of the house.

### Grain Act Amendment

Bill is Discussed At Length in the Senate

Ottawa.—The bill to amend the Grain Act, known as the Campbell bill, continues along its tortuous way. This bill would give the wheat pool farmers the right to ship their grain through privately-owned country elevators.

During debate two amendments were proposed. One would provide that the bill will come into force on proclamation of the governor-in-council, and remain in force for a period not exceeding one year from the date of proclamation.

A second amendment which was proposed states: "Any grain pool shall be empowered and is hereby empowered to purchase from any elevator company one or more country elevators at any shipping point at which such pool has no elevator, and in case there are more elevators than one at such shipping point, and the owners of such elevators and such pools are unable to agree as to which elevator or elevators the said pool shall purchase, then and in that event, the board shall decide which elevator shall be purchased by such pool; and in case the owner, or owners, of such elevators so decided upon and the pools are unable to agree as to price and terms for such elevator or elevators, then the price and terms shall be determined by arbitration under the provisions of any act relating to arbitration in force in the province wherein such elevator or elevators is situated."

### Bitter Verbal Clash In British House

Labor M.P. and Secretary of Mines in Dispute

London.—Another verbal contest in which Joseph Westwood, Labor member for Midlothian and Peebles, threatened personal violence against Col. George Lane-Fox, secretary of mines, occurred in the House of Commons when debate was resumed on government order which would permit coal miners to work eight hours a day instead of seven as at present. Col. Lane-Fox stated that if he had said anything which seemed offensive he withdrew it.

He thought there had been malicious conception of what he had said. Mr. Westwood had previously threatened to take a box off and throw it at Col. Lane-Fox. "If I cannot get anything else."

The Labor member was deeply moved by a remark which he thought reflected on the courage of his men folk.

**Cow Breaks Milk Records**  
Montreal.—The Canadian Ayrshire Breeders' Association announced that Nellie Osborne, of Elm Shade, owned by W. C. Wylie, Glen Elm Farm, Howick, Que., has broken all former Ayrshire records in milk and fat production. In an official test of 355 days, she produced 21,241 pounds of milk and 940 pounds butter fat, which far outdistances the production of any other cow of the breed.

**Fanlan Raid Veteran Dead**  
Ottawa.—Lieut. Colonel Archibald McLean, Fanlan raid veteran, died at his residence, Westboro, aged 87 years. He was born at Pendleton, Ont., the youngest son of Hugh McLean, who was a factor for the Hudson's Bay Company and a pioneer of the city of Winnipeg.

## Predicts Industrial Activity For Canada

C.N.R. President Advises People To Stay in Dominion

Montreal.—The United States sent a great railway man to Canada in the person of Lord Shaugnessy who was one of the greatest empire builders, few men having done as much as he did for Canada. If I can make a slight approach to his work I shall not have lived in vain."

So declared Sir Henry Thornton, president of the Canadian National Railways, speaking at a banquet of the American Railway Association here.

Sir Henry made mention of the harmonious existence in Montreal of two great races, and also to the lure that the United States has had for many Canadians, drawn thither by commercial advantages. He warned prospective emigrants, however, that they will be the advantage if they stay at home and are content to look ahead to the future in which looms the star of prosperity.

"Things are going to happen in Canada in the next ten years," he stated emphatically, "Canada is on the threshold of great industrial activity."

## Austria Confident Of Financial Prosperity

Country Has Had Hard Struggle Since Armistice

Vienna.—Way in the Balkans will be the last thing Austria would want to see. We want nothing but to be left in peace. We have no resentments, we seek to recover no lost provinces. We only want to live and be useful."

One of the greatest Vienna bankers is speaking. He is a cultured, proud aristocrat of the old days of the dual monarchy when the banks of Vienna competed with London, Berlin, Paris, Frankfurt and Munich. "Canada is on the threshold of great industrial activity," he said. "We have had repeated setbacks and disasters, but we have come back to our task each time and always has it been proven that there are no artificial shortcuts to solvency and to success and prosperity."

"The depression followed us all through last year. Although our unemployment continues to increase, I believe that now we have turned the corner, although we need tremendous difficulties."

### Find Ring In Grain Car

Lost Last Fall In Wheat Separator Near Findlater

Regina.—Some time last September on Dr. Dillabough's farm out from Findlater, J. M. Robb, the Case Co. representative, lost a ring while examining the wheat in the separator. The other day E. J. Topping received the following from the N. M. Patterson Grain Co., Winnipeg:

"Dear Sir:—We are today in receipt of a wire from Mr. M. G. Atkinson at Fort William advising that they found a Masonic ring in car No. 345419 which was shipped by you from Findlater. Do you know anything about it? If you do communicate direct with him at Fort William, care of N. W. Patterson Co."

A few days later the ring was back to the owner.

## New Red Lake Strike Reported

Said To Be As Good As Any Yet Disclosed

Toronto.—A special dispatch to the Toronto Star from Hudson, Ont., reports a big new strike at Red Lake.

The report states that this was flashed upon the mining camp and that the find is on what is known as the Bill Smith group, a mile east of McKenzie Island. Veldt are said to have been uncovered as good as any they yet found at Red Lake or vicinity.

The Star says: "A number of average channel samples from this property assayed from \$9 to \$23 per ton for gold, with an equal quantity of silver."

**Section of New Cable Laid**  
New York.—The new Atlantic cable designed to expedite materially undersea communication was landed successfully June 30 at Bay Roberts, Nfld. Another section from Bay Roberts to New York will be completed by September, according to Western Union officials, who described the new cable as "the fastest in the world."

**Advocates Reform of League Pact**  
Paris.—The International judicial union is studying a report of Alejandro Alvarez, of Chile, advocating reform of the League of Nations pact, with the creation of separate American and European leagues of nations in mind.

## Is Again Premier

Mr. Meighen, who has been called upon to form a new government at Ottawa.

Mr. Meighen, who has been called upon to form a new government at Ottawa.

## MEIGHEN DEFENDS THE ACTION OF GOV. GENERAL

Ottawa.—Declaring that "the attack promulgated by, or under the direction of, the late prime minister ought not to pass unnoticed," Right Hon. Arthur Meighen, prime minister, issued early this morning a statement defending the action of His Excellency the Governor-General in refusing dissolution to Right Hon. W. L. Mackenzie King, now opposition leader.

Mr. Meighen states that when a prime minister, having asked and obtained dissolution, but failing to obtain a majority, continues in office, he is not entitled to demand a second dissolution merely because he is unable to command a majority in the House of Commons. "More emphatically should it be true that in the case of a second dissolution, if not indeed in any case whatsoever, a government is not entitled to dissolution while a motion of censure against that government is under discussion in the House," he proceeds. "A dissolution very manifestly should not be granted when its effect is to avoid a vote of censure. This was precisely the case in the present instance."

The text of the statement follows: "While it is highly undesirable that a controversy should arise with regard to the conduct of the governor-general in respect to a matter upon which his duty compelled him to give a decision according to his best judgment, yet the attacks promulgated by, or under the direction of, the late prime minister ought not to pass unnoticed. A reasonable consideration of the fact that his excellency, by virtue of his office can himself make no defence, warrants several words on his behalf."

"There are several classes of cases in which the crown must exercise discretion in granting or refusing the advice of a prime minister asking for an appeal to the people. The only class to which attention need be directed at the moment is that in which a prime minister, having asked for and obtained dissolution, has failed to secure a majority. It is indisputable that in such a case a prime minister continuing in office is not entitled, during the ordinary course of parliament, to demand a second dissolution merely on the ground that he is unable to command a majority in the House of Commons. This principle is of a special force in the early stages of a new parliament."

The country of Tibet is reported to have only one motor vehicle, which is a motorcycle.

## FARMERS' PARTY OF ALBERTA TO REMAIN IN POWER

Calgary.—Premier J. E. Brownlee has been returned to power at the head of the United Farmers of Alberta. He will have an undiminished majority in the legislature. Liberals will probably retain their numerical strength. The Conservative party made a gain of three seats. Two Labor members, and possibly a third, pledged to support the government, were elected.

Additional returns came slowly to day and tonight due to the arduous task of counting the preferences under the proportional representation system. In quite a few cases several days will elapse before elections can be definitely declared.

Labor suffered because of the Conservative vote in Calgary, returning but one member compared to two from the city in last election. Hon. Alex. Ross, minister of public works, labor candidate, was defeated and the Labor vote generally was small.

Conservatives represented by U.E.A. members in the fifth legislature return their representatives as a general rule. In Beaver River and Edmonton the party gained members. In the two new seats, Empress and Cypress, added since the 1921 provincial election, farmer candidates were returned.

## Would Colonize Russia

American Jews Give Ukraine Preference Over Palestine

Riga, Latvia.—A large majority of American Jews are in favor of the American Government recognizing Soviet Russia, according to Dr. Joseph Rosen, director of the American Joint Distribution Committee, which has collected \$20,000,000 in the United States to colonize Jews on farm land in the Ukraine.

In an interview published in the Leningrad Krasnyy Gazette, Dr. Rosen says only a few Jewish social and democratic papers, such as the New York Vorwarts and a few of the Jewish labor unions oppose recognition.

The American Jewry, continues Dr. Rosen, has decided it is better to assist the Russian plan for colonizing Jews in the Kherson district, averting future pogroms, instead of helping Palestine at present. Of the \$20,000,000 Jews in Russia he estimates that more than 1,000,000 are unable to earn a living, so the colonization plan was voted preference over the Palestine project by a meeting of the American Jews in New York.

## Is Appointed Manager

E. G. Hingley Is the New Manager of the Saskatchewan Wheat Pool

Regina.—Appointment of E. G. Hingley, secretary-manager of the Saskatchewan Municipal Life Insurance Association, as manager of the Saskatchewan Wheat Pool, was officially announced following the reorganization of the Wheat Pool and Saskatchewan Co-operative Elevator Company's executives.

Donald MacIac, who has been joint manager of the Wheat Pool and the Pool Elevators Ltd., is appointed to the position of manager of the re-organized pool elevators, while S. G. Lowthian, treasurer of the Saskatchewan Co-operative Elevator Company becomes treasurer of the Wheat Pool in succession to J. D. Ross, who takes over the treasurership of the Saskatchewan Pool Elevators Ltd.

**Won't Patrol Fisheries**  
Victoria, B.C.—There will be no aerial control of Northern British Columbia fisheries this year, according to word received at the provincial fisheries department from federal officials.

## Rural Credits Bill

Has Passed Senate With a Few Amendments

Ottawa.—Rural credits passed the senate with amendments. The measure which recently passed the commonsponsored by the Mackenzie King Government, now goes back to the commons for the concurrence of that chamber in the amendments which the upper chamber has made in it.

The two principal changes made were the removal of the limitation of one per cent. for expenses and leaving the amount in the judgment of the board, and placing responsibility for all expenses incurred in a province on the province in which they were incurred.

Senator W. B. Ross, Conservative leader, had moved at an earlier stage that "the act should not come into force until the majority of the provincial legislatures had by legislative enactment signified their intention of participating in this scheme."

He said the bill was not needed, as the provinces which had already rural credits were making profits.

Senator Schaffner said that to make it compulsory to have five provinces to the scheme before it became operative was a good way to kill it.

Sensors Dandurand and Willoughby opposed the amendment. The bill was for all Canada while it was primarily to help western farmers. The time might come when the east would need such a law.

Senator Belue spoke in favor of the bill. It carried out a duty the east owed to the west.

## Weather Prediction

Not Fulfilled

'Summerless' Forecasters All Wrong Says Sir Frederick Stupart

Toronto.—Predictions that 1928 would be a "summerless year" have so far not been fulfilled. This prediction was made by H. J. Brown, ocean meteorologist, of Washington, last fall. April was unusually cold, but May was somewhat above the average temperature. June is a little colder than the average, but not much. This inference was given by Sir Frederick Stupart, director of the Dominion Observatory here, and weather forecaster for the Dominion.

Sir Frederick was not worried about the report that this would be a "no summer year." "It is a little late in weather prophecies for long periods ahead," he said. "We have not the knowledge to determine such events in the future."

## FOR CLEAN-UP OF CUSTOMS FROM COAST TO COAST

Ottawa.—"The farmers party wants for a complete clean-up of the customs from coast to coast," said Miss Agnes McPhail to the Canadian Press after the Progressive party caucus.

"The present inquiry has been confined to only two ports and has but scratched the surface. It must be extended from coast to coast and be complete, without fear or favor, and irrespective of where the chips fall. There should be a judicial inquiry, and this should report all groups in the house—that is to say, one judge should be nominated by the Liberals, one by the Conservatives and one by the independent groups. This commission should proceed to work immediately after adjournment of parliament and parliament should not meet again until the report is complete, whether it takes six or eight months. Then parliament will be in a position to consider the whole question on its merits. There will be no sheltering of higher-ups, to whatever party they may belong, and the general result will be a clean-up of political life in Canada of lasting benefit."

## British Comment

London Times On the Resignation of the King Government

London.—The London Times, commenting on the result of the resignation of the King Government in Canada, stated that the agitated debate at Ottawa on a purely domestic issue revealed the inherent weakness of the government, which could never count on a solid party majority, but was dependent on vague alliances with a declining group whose own prospects were obscure.

The Times continues that "it is not necessary to analyze the nature of the charges or attempts to assess the loss which has been caused by the Canadian business community going by the alleged extensive smuggling."

## GOVERNMENT IS DEFEATED BY ONE VOTE ON MOTION

Ottawa.—After only three days of office, the Meighen Government was defeated in the house by one vote, on a formal motion challenging the right of the acting ministers of the Meighen Government to sit in the house, moved by Hon. J. A. Robb.

Progressives who had voted with the Meighen Government in previous divisions sent it to defeat. Attendance in the house was comparatively slim, the government being in the negative.

There were 17 Progressives in the house for the division. Fourteen voted with the Liberals and three with the government.

The 14 who voted with the Liberals were: Miss MacPhail, Messrs. Coote, Brown, Garland (Bow River), King (North Huron), Jeffell, Evans, Bill, Spencer, Gardiner, Beaumont, Steedman, Miller, Forke.

The three Progressives who voted with the government were Messrs. Lucas, Boutilier and Pansher.

Four Progressives who in the last division voted with the government, now voted with the opposition and thus brought about the defeat of the government. The four were Messrs. Coote, Garland, Spencer and Gardiner.

This is the first occasion since Confederation that a government has been actually defeated in the house on a motion involving non-confidence. On three occasions, however, before resigning, the King Government found itself on the losing side in the house divisions.

## Great Damage Is Caused By Earthquake

Most of Countries Bordering On Eastern Mediterranean Effected

London.—The great earthquake which embraced Italy and most of the countries bordering on the Eastern Mediterranean, was much more widespread than first reports indicated. It extended as far as the East Indies, heavy shocks being experienced at Singapore and Central Sumatra.

This far-reaching report does not indicate any serious casualties in Crete, which appears to have been the centre of the disturbances, nobody was killed and only a few were injured.

It is under Italian sovereignty, suffered very heavy shocks, numerous villages being partially wrecked, and thousands of small houses razed, but even there the loss of life or injury to the inhabitants seems to have been slight.

Latest advices from Crete confirm that the damage to the archaeological museum at Candia, was extremely serious, among the many antiquities destroyed being a museum painting representing a bull fight at the Minoan Court.

## Britain Preparing For Imperial Conference

Defence Is First Problem For Imperial Meet In October

London.—The British cabinet and secretariat is now busy preparing material for the coming imperial conference in October, at which the most important question to be submitted to the empire members is as to imperial defence. According to the plan outlined by experts, the question falls into three categories: Defence of Britain, the Mother Country, and heart of the empire; defence of the imperial routes, and defence of the dominions and colonies.

The first two questions are considered the most pressing and the themes which are to be put forward by British experts involve: First, a continued and closer entente with France, and second, control of the Mediterranean, which is the vital cord of British communications.

## Planned To Shoot Mussolini

Rome.—Tito Zaniboni, former Socialist deputy, has confessed that he planned to shoot Premier Mussolini, according to a report of the attorney-general's investigation of the case, made public here. Zaniboni was arrested October 4 last, armed with a rifle, in an hotel room overlooking the balcony of the Chigi Palace from which the premier was to deliver an address.

## Gets Seven Years

Winnipeg.—Joseph X. Heast, former president of the Heart Music Publishing Company, was sentenced to seven years imprisonment in St. James Mountain penitentiary. He was found guilty of eight charges involving fraud and making use of forged documents and false pretences.

## HOW TO MAKE

## CANADA PROSPEROUS

We hear much from politicians and newspapers about the crying need of more population for Canada. That is claimed to be the solution of all economic troubles, and we have yet to see any really sound suggestion of how to induce the class of people who want to come here. Assisted immigration is beset with all sorts of difficulties, and our trade unionists very naturally protest against public money being used to attract people to this country to compete with them for employment. It is admitted on all hands that the immigrant that pays his own way generally represents a superior type and is more the kind which we want in Canada. It is conceded that what we want is men to fill up the vacant spaces in our Northwest and take up and cultivate the millions of idle acres which still can be found within reasonable distance from the railway transportation. But no public man dares to suggest the sane and practical way of a stiff tax on idle land.

The C.P.R. and Hudson Bay Company are the chief owners of the vacant farm lands near railways. If a tax of 3 per cent of the capital value of these lands were annually collected by the Dominion it would not only add considerably to the revenues of the country but would go a long way to solve the immigration problem. The immediate effect of this tax would be a reduction in the price demanded by these corporations for a big tract of land, and as no one would buy land subject to a 3 per cent tax for speculative purposes, as it would be too expensive to carry, and with no hope of getting a profit, they would be compelled to look for a real settler.

In the United States where farm lands now sell from \$30 to \$200 an acre it would not be difficult to persuade a few hundred thousand farmers there to sell their high-priced lands and come and farm ours if it could be got at from \$10 to \$20 an acre. In order to market their lands and save paying vast sums in taxation, the land speculators of the Northwest, such as the C.P.R. and the Hudson Bay Company, would have to reduce their prices to about the figures above mentioned.

What would it mean to Canada if 100,000 United States farmers, every year for the next ten years, could be induced to sell out their holdings in the States and locate in our Northwest? It would double the population there and provide a great market for the Eastern manufacturers. It would reduce railway deficits, increase the public revenue, and permit of reduced taxation to such an extent that we would enjoy the best of times.

## TO MAKE FILM AT JASPER

In per, the world's largest national park, is to provide the setting for one of the great moving picture epics of the year. "The Country Beyond," an adaptation of the story of that region by James Oliver Curwood, which is being produced by the Fox film corporation under the personal direction of Mr. Irving Cummings, is the last which is a notable one, includes such stars as Olive Borden, J. Farrell McDonald, Ralph Graves, Fred Kohler and Lawford Davidson, as well as a number of others of outstanding ability.

Two sections of the park have been chosen by Mr. Cummings as the setting for his play. Last week the company started work beside the jade waters of the Lake of Forgiveness, which lies in the shadow of Mount Edith Cavell. There and about Jasper Park Lodge, on the shore of Lac Beauvert, the preliminary work is being carried on. Later the entire company will move by pony trail to Maligne lake, where the remainder of the picture will be filmed. The work will occupy almost three weeks and it calls for an expenditure of almost a quarter of a million dollars.

Never before has Hollywood come so far north to film a picture, this being the first time in the history of the motion picture industry that a complete screen feature has been produced north of the international boundary.

## RETURNING OFFICER'S OFFICIAL COUNT

Following is the result of the official count in connection with the recent election, conducted by Mr. Frank Wheatley, returning officer, today at the town hall. Mr. P. M. Christophers, M.L.A., received an absolute majority of 178 over his two opponents, Messrs. J. Kerr and A. M. Densmore. Mr. Wheatley's official figures are as follows:

P. M. Christophers	1765
John Kerr	801
A. M. Densmore	786
Total number first choice ballots cast	3352
Spilled ballots	349
Total number ballots cast	3701
Christophers' 1st choice	1765
Kerr's and Densmore's total 1st choices	1587
Christophers' absolute maj.	178

The amount required to save deposit is 20 per cent of the total number of first choice votes cast (20 per cent of 3352), or 670.4 votes. Percentage of spoiled ballots, 10.4 per cent.

duced taxation to such an extent that we would enjoy the best of times. Why is it not done? Is it because our public men are directly under the control of land speculators, or is it that they do not yet understand the effect of taxation? In either case it is little to their credit, and it is up to our readers to enlighten them and the public generally.—The Square Deal.

## COLEMAN'S FIRST AID CONTEST AT COLLEMAN

The First Aid competitions held at Coleman on July the 1st, were both interesting and successful. The competitions were in charge of Messrs. Moses Johnson and David Davidson, assisted by a strong committee. The contestants were put somewhat of a danger on the proceedings, so that they were prevented from holding the contests in the park, as arranged; but the arena was placed at their disposal and served the purpose well. Six five-men teams competed in the senior contest, held from 10 a.m. to 3 p.m., with the following results.

First prize—International, Coleman, with total of 451 points. Individual scores: 80, 95, 88, 95, 93.

Second prize—Blairmore No. 2 team, with total of 435 points. Individual scores: 66, 95, 89, 93, 92.

Third prize—McGillivray, Coleman, with total of 427 points. Individual scores: 68, 83, 92, 91, 93.

Fourth prize—Bellevue No. 2 team, with total of 422 points. Individual scores: 74, 86, 86, 87, 89.

Fifth, souvenir—Bellevue No. 1 team, with total of 421 points. Individual scores: 64, 83, 90, 87, 92.

Sixth, souvenir—Blairmore No. 1 team, with total of 402 points. Individual scores: 37, 89, 94, 94, 88.

The junior classes were divided into two groups of boys of over and under-fifteen years of age, and the following were the results:

A. Class, over fifteen years—

First prize—Bellevue, with total of 436 points. Individual scores: 66, 83, 97, 97, 93.

Second prize—Blairmore No. 1, with total of 428 points. Individual scores: 73, 92, 84, 90, 89.

Third prize—Coleman Taxis No. 2, with 376 points. Individual scores: 59, 84, 85, 81, 67.

B. Class, under fifteen years—

First prize—Blairmore No. 2 team, with total of 423 points. Individual scores: 57, 91, 91, 93, 91.

Second prize—Blairmore No. 9 team, with total of 326 points. Individual scores: 30, 90, 63, 66, 77.

It is regrettable that the work could not have been carried on outdoors. The work of the boys was performed in the rooms adjoining the arena.

The judges commented upon the good work done by the boys, but regretted that more people could not have been given an opportunity of witnessing same.

Free lunch and dinner were provided for the boys at the Grand Union hotel.

Prizes were presented to the seniors by Mr. G. Kellock, general manager of the McGillivray Creek Coal & Coke Company, who outlined the work that had been done by the committee to carry the event through successfully. He also congratulated the teams on the splendid way they had performed their problems, and mentioned that the International team which had the honor of carrying off the first prize, also had the enviable distinction of carrying off the Coderre Cup for the Dominion championship in 1926. This team was examined some two months back by Col. Dr. Hodgetts, of Ottawa, who travels the whole Dominion, and they were notified several days back that they had been awarded first place.

Mr. O. E. S. Whiteide, general manager of the International Coal & Coke Company, presented the prizes to the juniors, and congratulated them upon their efficient showing. Coleman was proud of having the first annual First Aid contest held there, and were proud of the fact that the International team had won the Coderre Cup from the rest of Canada. He advised the boys to continue with the work—it was to their benefit and they would not only benefit themselves, but would be able to render assistance to others.

He sincerely hoped that the boys would become proficient in the work, to enable them to carry on the honors that had fallen to Coleman teams, in winning the Coderre Cup for 1926 and 1922, as well as the Montizman

best Cup in 1922, which is also an open competition to all Canada for teams of miners, firemen, police, etc.

The following acted as judges and great credit is due them for the manner in which they carried out the task entrusted to them: Dr. Groff, Edmonton; Chief Paulds, of Taber; Dr. Walkey, of Pincher Creek; and Mr. Noble, of Winnipeg, lecturer and examiner of First Aid classes for the Canadian Pacific Railway Company.

The beautiful silver cup donated by the McGillivray Creek Coal & Coke Company, known as the McGillivray Cup, will be held for one year, or until such time as the annual contest is held, by the International team.

At the Grand Union hotel a fitting climax came when the judges were presented with a souvenir in the shape of a gold-mounted pencil, in recognition of their work, the presentation being made by the chairman, Mr. Moses Johnson.

Thanks are due all who helped to make the contest a success, particularly mentioning the McGillivray Creek Coal & Coke Company, Limited, who erected a very large platform in the park, on which the problems were to be carried out, weather permitting; also for the erection of the large tents there. Thanks are also due the arena company and the Elks' lodge for the use of the arena at the time the Elks' carnival was being held in progress.

Mr. Dempster, of the local vendor store staff, left by Monday night's train for Kamloops, to attend the funeral of his father, who died Monday morning, following a prolonged illness.

Overheard at The Lodge Hall—  
He—"I can't learn the Charleston!"  
She—"Why not?"  
He—"I dunno. Guess I'm too sound mentally."

## Historic Coldstreams Band in Canada

(1) Band Grouped Prior to Selling for Canada.  
(2) Lieut. R. G. Evans, Director of Music to the Coldstream Guards.

The band of the famous Coldstream Regiment, the lineal descendant of the "New Model" first Regular Army, which was raised and organized by Oliver Cromwell, are touring Canada this summer under the direction of Lieut. R. G. Evans. The Lord Mayor of Liverpool was on the dock when the band embarked on the Canadian Pacific liner "Montcalm" amid the cheers of thousands of people.

Arriving in Quebec on June 25, the band proceeded on their way West, where they will fulfill a number of engagements at the Brandon, Saskatoon and Regina exhibitions, and the Calgary Stampede. Their tour will probably extend as far as the Pacific Coast, including, also, visits to Vancouver and Winnipeg. Returning in the fall, the band will play at the Toronto Exhibition, and embark for home on the "Empress of Scotland" on September 16.

The last visit paid to Canada by the Coldstream Guards Band was in 1911, under the direction of Lieut. Col. Mackenzie-Rogan, one of the Regiment's most famous bandmasters, who enlisted as a band boy in 1887 and rose to be Director of Music to the Coldstream Guards and Senior Director of the Brigade of Guards.

When Col. Mackenzie-Rogan took charge of the band its total strength was thirty-four performers, but when he handed it over to his successor, Lieut. Evans, in 1920, the band establishment was sixty-six.

There is evidence that a Coldstream Band existed in 1742. At first its members were civilians, but in 1783 the officers petitioned their Colonel-in-Chief for a band of regular attested musicians and got it. This band included two oboes, four clarionets, two bassoons, one trumpet, two horns and one serpent. In 1815 when the band had been augmented by the introduction of several more instruments, it was ordered to Paris during the occupation by the allies.

### RESULTS OF MUSIC

#### EXAMINATIONS

Results of the Associated Board of the Royal Academy of Music and the Royal College of Music examinations recently held in Lethbridge, Blairmore, Bellevue and Carleton follow:

Piano, Primary Division—Bennett, Evelyn Ellen; Brown, Delys; Buchanan, Elizabeth Mary, distinction; Burham, Dorothy; Clark, Elizabeth Evelyn; Cooper, Gwendolyn; Emerson, Elma Joyce; Gray, Isabel Campbell, honorable mention; Key, Gladys Muriel; Kelly, Helen Virginia; Lundy, Dorothy; Meldrum, Mildred; Skirrak, Agnes, honorable mention; Warr, Arthur, honorable mention; Young, Dorothy.

Elementary Division—Bargess, Dorothy; Bell, Marion; Blake, Gladys; Bogusch, Erna; Bowker, Mary; Brown, Gwendolyn, honorable mention; Clelland, Minnie; Costick, Frances Jean; Costick, Kathleen Louise; Finnemore, Dorothy Ellen Gunn Molly; Hacking, Elizabeth Hazel; Hinner, Opal E.; Jones, Charles Trevor; Mason, Barbara; McLean, Elsie; Murray, Harold Clifford; Needs, Beatrice May; Olsen, Marie; transportation as developed by the Winton, Lapsal.

Lower Division—Bennett, Muriel Sterdale; Ferguson, Christina; Glanville, Joan; Johnston, Laura Maud; Mahe, Harry; Mathews, Lillian; McDonald, Pearl; Thornhill, Hazel May; Webster, Mary; Winton, Olive Ellen.

Higher Division—Constantinescu, Clinton; Cooper, Ruth Angelina; Orington, Catherine Alice; Davidson, Catherine; Larson, Janet Dorothy; McDonald, Hazel; Pearson, Marion E., honorable mention.

Intermediate Grade—Bishop, Elizabeth; Craig, Dorothy; Hacking, George Reid; Thomas, William Glynn. Advanced Grade—Parisel, Margaret; Rader, Teresa.

Violin, Primary Division—Dickie, Margaret; Ferguson, Morjorie, distinction.

Elementary Division—Johnson, Eric George, honorable mention; Kunst, Alvin; Pearson, Marian Elizabeth; Taylor, Norman.

Lower Division—Gibson, Jean Isabel; Ives, Margaret Etta.

Higher Division—Delay, Fred

Thomson, Ivan; Vickery, Ernest Harvey.

Intermediate Grade—Kergan, James; Lacey, Arthur. Singing, Primary Division—Ray, Violet May. Elementary Division—Wooten, Ralph.

#### COWLEY HAPPENINGS

Ed. Baines is holidaying in Banff. Miss Martha Tustian is visiting in Calgary.

Miss Minnetta Crowe has gone to Vancouver for her summer holidays.

Mr. and Mrs. C. J. Bundy are taking a holiday at present in Vancouver.

H. D. McMillan, proprietor of the Cowley hotel, is a stampede visitor in Calgary.

J. M. MacDonald, principal of the Cowley school, is in Edmonton working on the examination board.

Miss Ruth Fink, has returned to Spokane, after spending two weeks vacation with her parents here.

G. Smith and family left on the first of July for a trip to Vancouver by motor, accompanied by John Bullock.

Miss Skene has concluded her engagement as teacher of the Heath Creek school and has gone to her home in Calgary.

Mr. Trace, who has been teaching at Mayercroft school for some months, has resigned, and left a few days ago for his home in the east.

Mrs. Will Tustian and niece, Muriel Martow, have gone to Purple Springs for an extended visit with Mr. and Mrs. Elwin Tustian.

A belt of land has been ploughed and disced on two sides of the sports field and is being made ready for planting trees in the spring.

Miss Rosamond Blackburn, of Guelph, spent the week end and the guest of Mr. and Mrs. M. A. Murphy, before going on to pay a visit to friends on the North Fork.

Weather conditions are very favorable for the growing crops and all vegetation is making rapid progress. Hay cutting has commenced in some

parts of the district.

Professor Uteff's dog and monkey show, given in Cowley on June 30th, was much appreciated, particularly by the juveniles. The excellent work of his animals tell of many hours of painstaking training.

A special meeting of the Women's Institute was held at the home of Mrs. M. A. Murphy on Saturday night, for the purpose of making further arrangements for sending Mrs. Gordon Robinson to Dr. Connor for an operation. Plans were made for her to go to Lethbridge hospital on Tuesday's local and she is now being cared for there.

### TWENTY YEARS OF PROGRESS IN ALBERTA

Total value of agricultural products, 1905, \$20,000,000; 1925, \$245,000,000.

Wheat production, 1905, three million bushels; 1925, one hundred and three million bushels.

Area in all crops, 1905, 616,000 acres; 1925, eleven million acres.

Dairy products, 1905, \$1,000,000; 1925, \$23,000,000.

Coal production, 1905, 931,000 tons; 1925, 5,800,000 tons.

Manufactures, value 1905, \$4,979,000; 1921, \$66,702,000.

Miles of railway in 1905, 1000; 1925, 4900 miles.

Population, 1905, 200,000; 1925, 640,000.

### JAPS INTERESTED IN C.N.R. RADIO

For the purpose of investigating progress of radio in Canada, particularly its workings in the world of transportation as developed by the Canadian National Railways, Kikioji Suzuki, of Tokyo, Japan, and K. Togasaki, of San Francisco, are travelling over the system on radio-equipped trains.

According to Mr. Suzuki, the Japanese government railways are now experimenting in the establishing of radio on their railways and they are anxious to secure an insight into the conditions under which radio-equipped trains operate over the Canadian National lines.

Automatic fog horns of French invention that begin as soon as fog appears, are operated by the effect of moisture upon calcium carbide.

John Kerr and family have moved from Fifth Avenue to the apartments in West Blairmore recently vacated by Mr. and Mrs. W. A. Henderson.

WORLD HAPPENINGS  
BRIEFLY TOLD

Mrs. Catherine Jellicoe, an aunt of the Earl of Jellicoe, died at Southampton, June 28. She would have been 125 within a few weeks.

Col. M. McLean, 87, Fushan Hall veteran, whose father was a factor for the Hudson's Bay Company in Western Canada, is dead.

Saskatchewan's bee population has been increased this year by a big influx of imported bees from various points in the Southern States and also Manitoba aparies.

The King and Queen opened a new wing of the Tate Picture Gallery, near Westminster, including a special-galery housing 200 oil paintings, water colors and sketches of the late John Sargent.

Pickets favoring the anti-British strike and boycott against Hong Kong killed five persons and wounded another when they fired into a group of Chinese about to board a vessel for Hong Kong.

Exile to the Maria Islands has been decreed by the Mexican Government as the penalty for illegal sale of narcotics. Proprietors of stores caught selling drugs illegally, will be forbidden to operate drug stores in Mexico again.

League of Nations officials insist that the resignation of several or any of the small powers will not seriously affect the league's influence, and that only if a great power like Great Britain or France resigns would the league be really in peril.

Labor leaders in Harbin, Manchuria, are collecting \$20,000 to be sent to England to aid against British soldiers. Members of professional unions are required to subscribe one per cent of their monthly wages to make up the \$20,000 quota.

The League of Nations' commission of experts on reform of the calendar has decided to recommend that the second Sunday in April be the fixed date for Easter. The decision is subject to an agreement with the Holy See, which was not represented at the last meeting of the commission.

## Capsules That Combat Disease

**Important Discovery Made By Professor at Pasteur Institute**

A sensational discovery, which it is claimed may possibly revolutionize medical science, is made public by M. Beresche, the successor of Professor Metchnikoff, at the Pasteur Institute in Paris.

It is declared that by swallowing capsules containing a virus, the walls of the stomach are immediately vacuolated. It is believed that this manner of fighting such diseases as typhoid is much more efficacious than injections.

Among other diseases which it is claimed may be combated by swallowing various capsules are pleurisy, laryngitis, anthrax and pyorrhea.

The fundamental idea of the treatment is that there should be a virus for each particular organ of the body which would be affected by the contraction of a disease.

M. Beresche makes the walls of the stomach susceptible to the virus by using a small quantity of oil.

## Dedicate Window In Westminster Abbey

**In Memory of British Prisoners Who Died in Germany**

A beautiful window in the north side of the nave of Westminster Abbey which was donated by James W. Gerard, former United States ambassador in Berlin, in memory of British prisoners of war who died in Germany, was dedicated in London. The ceremony was performed by Dr. Forster Norris, dean of Westminster. Mr. Gerard was represented by Alanson B. Houghton, the American ambassador to London, and many other American were present.

## Hadn't His Shirt

Because he didn't happen to have a bolted shirt ready, the professor of chemistry who was elected president of Poland asked to have his inauguration ceremonies postponed. That was an appropriate start for the head of a really democratic government. It reminds one of Thomas Jefferson hitching his horse to a fence and going in to be made president of the United States—Grove Patterson in Duluth Herald.

Many districts in Java are permeated with petroleum. In places, if a handful of earth is taken up and squeezed, a stream of oil may be forced from it.

It's all right to make some things go as far as possible, but it isn't policy to stretch the truth.

W. N. U. 1936

## Northern Route For Cattle

Mayor of Saskatoon is a Strong Supporter of the H. B. R.

Mayor Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon paper his words said:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. From there the Pas is 85 miles and from that town to Port Nelson is 424 miles, being a total of 684 miles. It is a gradually dropping water. The proposed line giving Saskatoon direct connection with the Hudson Bay Railway would, no doubt, pass through Humboldt.

"It can reasonably be anticipated," said the mayor, "that one of the many readjustments in the routing of traffic following the opening of the bay route will be in connection with the great cattle industry of Southern Alberta. I anticipate the day when those cattle will pass through Saskatoon, enroute to Liverpool and other European ports."

"From, say, Calgary to Montreal via the Canadian Pacific Railway is 2,245 miles. From Montreal to Liverpool via Belle Isle—a route available only a portion of the year—is 2,750 miles, a total, Calgary to Liverpool, of 5,000 miles, the rail haul being 45 per cent of the total mileage. From Calgary to Liverpool via Montreal and Cape Race the mileage is 5,255 miles, of which the rail haul is 45 per cent."

"From Calgary to Port Nelson, via the proposed direct line, Saskatoon to Hudson Bay Junction, the mileage approximately would be, Calgary to Saskatoon, 400 miles; Saskatoon to Port Nelson, 687 miles, a total of 1,087 miles—say 1,100 miles, and from Port Nelson to Liverpool 2,966 miles—a total of 4,066 miles, of which only 27 per cent, is rail haul." The mayor, as one familiar with the subject, pointed out that while cattle in transit "shrink" during railway travel, they "pick up" on board ship. Also that the coolness of the bay route would insure their arrival at port of disembarkation in fine condition and he stressed two marked advantages as favoring the bay route: cattle shipment—less total mileage and a lower percentage of that total being rail haul than that of any existing North Atlantic route."

## Will Fight Communicable Disease

**Health Officers of North America Adopt Plan of Dr. Seymour**

At the 41st annual meeting held in Atlantic City recently of the Conference of State and Provincial Health Officers of North America, Dr. M. M. Seymour, mayor of the city of Seattle, for Saskatchewan, who is president of the conference this year, in his presidential address brought forward a scheme for increasing efficiency in dealing with communicable diseases in North America. The plan was most heartily endorsed by the conference and has since been approved by Hon. J. C. Elliott, minister of health, Ottawa; by the International Health Board and the United States Public Health Service, as well as by Hon. J. M. Church, minister of public health for Saskatchewan. It was so well thought of by the conference of State and Provincial Health Officers of North America that a resolution was passed endorsing it, and it was to be known as the Seymour Plan for the control of diphtheria, smallpox and typhoid fever.

The general idea of the plan is to devote the months of September and October to the prevention of diphtheria, November and December to the prevention of smallpox, and January and February to the prevention of typhoid fever. The association has already appointed a committee, each member of which is to take the lead in his own part of the country, and steps have been taken to secure the endorsement and co-operation of the organized medical profession, of all voluntary health organizations, and of the press.

## Strange Aquatic Animal

A strange looking aquatic animal reported to be half the length of a canoe, and believed to be a giant sturgeon of a species known to abound in northern waters, was seen in the St. Lawrence River recently. It was thought to be one of two pet alligators who escaped from Aylmer, Que., last fall, but naturalists claim an alligator could not survive a winter in a frozen river.

## Canadian Judges at American Shows

Charles Y. Y. of Canada, Alta., is appointed judge of Shorthorns for the Illinois state fair at Springfield, Aug. 21 to 28. Dean H. Barton, of Macdonald College, is scheduled to judge the following Shorthorns at the Bi-centennial fair at Philadelphia, Sept. 12-18. Canadian judges are needed for the quality of their work wherever called on to perform.

A man has outlived his usefulness when he is no longer capable of giving advice.

Success is the only thing that can turn a man's head when he has a stiff neck.

Just wishing things would change is about like striking a match to the thermometer to make the room warmer.

Major Russell Wilson, of Saskatoon, is a strong advocate for the early completion of the Hudson Bay Railway. In a recent interview with the local Saskatoon paper his words said:

"As mayor of Saskatoon it is my policy in co-operation with the other members of the city council, the board of trade, the press and all other citizens to secure at the earliest possible date such railway construction as will link up Saskatoon and Hudson Bay Junction by the shortest possible mileage. While I cannot, of course, state definitely what that mileage would be, an approximate estimate is 175 miles. ## Planning Patrol Of Arctic Archipelago

This Year's Expedition Will Attempt Completion of New Post

Preparations for the 1936 patrol of Canada's Arctic Archipelago are being made by the North West Territories and Yukon branch of the department of the Interior. This year's visit, to the far northern points of the S.E. Boothie, a sailing vessel of 2,700 tons capacity, and the expedition will sail from North Sydney, N.S., instead of Quebec. The posts already established will be visited and an effort made to complete the establishment of the new post at Bache Peninsula on Ellesmere Island, latitude 79 degrees north.

The ship is expected to return in late September or early October.

George F. MacKenzie will again be the officer in charge.

Captain Falk will command the vessel. About ten members of the Royal Canadian Mounted Police will be taken north to relieve those coming out.

Dr. L. J. Weeks, who accompanied last year's expedition as geologist, also will be included in this year's personnel. He, with an assistant, Maurice Haycock, will establish a base at Pangnirtung on Cumberland Sound. They will remain in the north until October 1937, studying geological data on the interior of Baffin Island.

Canadian Judges at American Shows

Charles Y. Y. of Canada, Alta., is appointed judge of Shorthorns for the Illinois state fair at Springfield, Aug. 21 to 28. Dean H. Barton, of Macdonald College, is scheduled to judge the following Shorthorns at the Bi-centennial fair at Philadelphia, Sept. 12-18. Canadian judges are needed for the quality of their work wherever called on to perform.

Success is the only thing that can turn a man's head when he has a stiff neck.

Just wishing things would change is about like striking a match to the thermometer to make the room warmer.

## Great Changes At Kiel

Years Have Made Vast Difference in Island Fortress

Nowhere would the visitor, were he to return to his country, find a more poignant contrast between the present and the past than in Kiel.

William II. was the creator of this powerful naval fastness, with its huge docks and all the apparatus of ship-building and repair. He was the builder of the formidable fortifications defending the sea approaches. This was the scene of some of his great moments when as commander-in-chief of the fleet he steamed into the harbor as rounds of applause poured from dozens of guns.

Today the harbor looks empty. The forts are partly dismantled. The naval academy is closed. The castle in which Prince Henry, the Kaiser's brother, lived in an office building, the Yacht Club House, presented by the elder Krupp, is now a scientific institute. It was there the Kaiser, surrounded by his admirals and generals, made many an utterance that caused flutters in foreign chancelleries. Everywhere are suggestions of decay and neglect and change.

## Not Considered A Handicap

Many Remarkable Feats Accomplished By Men With Artificial Legs

Recent questions in the British Parliament regarding the supply of artificial limbs to ex-soldiers drew from the minister of pensions some illuminating statistics and facts bearing on the feats accomplished by one-legged men.

One interesting revelation was that it is seldom nowadays that a man who has lost a limb is unable to return to his regular employment, so great have been recent advances in the designing and making of artificial legs and arms.

There are men today who are so lithe and resilient by the use of a false limb that they are as efficient as if they had the normal complement of arms and legs. One man who lost a leg four years ago has driven a car upwards of 300,000 miles and has never had an accident. Another man, similarly placed, takes part in motor racing contests.

Men with wooden legs have made fine records as athletes. A man with two wooden legs walked a mile in 3 1/2 min. Another, with an artificial leg, broke a record with a high jump of 5 ft. 7 in.

## England Holds War Pageant

## Greatest Military Tournament Ever Held Was Staged at Aldershot

Probably the greatest military tournament ever held in England, was staged in a 20 acre arena at Aldershot on June 15 in the presence of 30,000 persons.

The producers stirred up history thoroughly and rapidly, for scarcely 40 minutes elapsed between the overthrow of the Saxons by William the Conqueror and the encampment of a modern British army under the walls of an eastern city with the latest thing in aeroplanes dropping bombs and tanks travelling 30 miles an hour. The Charge of the Light Brigade was depicted with such regard for accuracy that the actual trumpet used at Balclava was heard again and the gunners handled genuine brass guns of the Crimean period.

Made by massed bands totalling more than 1,000 pieces was an impressive part of the event, but truly stirring was the final incident when the whole might of the company sang the hymn, "The Day Thou Gavest."

## Populous India

## With 350,000,000 Inhabitants India Has Over 200 Languages

Some idea of the number of people living within the borders of India may be learned by totalling the millions who populate Canada, the United States, South America and Africa, declares Paul Vergehouse, prominent scholar of science.

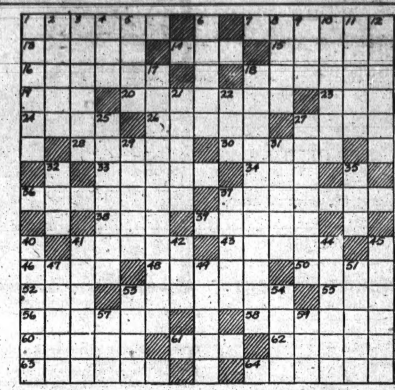

In a recent address, Mr. Vergehouse spoke of India's 350,000,000 population and said 250 different languages were used in the many districts of the country. This provided many tremendous and some unsolvable problems which might be held responsible for the continuous strife faced by India.

Mr. Vergehouse stated the people of his country were intensely religious and prepared to make any sacrifice, but he emphasized the fact that only about two per cent. of them were believers in the Christian faith. He appealed for more missionary workers to go into his native land.

## Wedding In Church For Deaf

The first wedding in the New Evangelical Church of the Deaf, Toronto, took place in June, when Miss Elsie Baskerville was married to Mr. Silas Baskerville. Rev. A. L. Richards officiated and the words of the marriage service were interpreted by Mrs. J. R. Byrnes.

## OUR CROSSWORD PUZZLE

- |                                    |                           |                              |
|------------------------------------|---------------------------|------------------------------|

## SUNDAY SCHOOL LESSON

JULY 4

## CHILDHOOD AND EDUCATION OF MOSES

Golden Text: Train up a child in the way he should go, and even when he is old he will not depart from it. Proverbs 22:6.

Lesson: Exodus 2:1-10; Acts 7:22. Devotional Reading: Proverbs 3:1-18.

## Explanations and Comments

The Birth and Hiding of Moses, Exodus 2:1-4.—To Amram and Jochebed (Ex. 2:1), husband and wife who belonged to the tribe of Levi, a son was born. The mother saw that he was strong and healthy, "a goodly child." Stephen called him "exceeding fair," Acts 7:20.

Some people have to struggle all their lives against physical disabilities and deformities. Moses was an anomaly of appeals and a basket of charms from the beginning. It is useless to teach a child who is marked out from his fellows by unusual attractiveness and power, that he is no better than his fellows. There is only one way of coping with the situation. From the beginning, the privileged one must be taught his duty to the unprivileged. Privilege and responsibility are indissolubly united. That is the wholesome truth, which is as salutary to the unusually enriched as to the unusually deprived.

For three months Jochebed kept her baby secretly hidden, despite Pharaoh's edicts that every son of the Hebrews should be cast into the Nile, where they would be devoured by crocodiles.

There are hosts of babies in our great cities who are exposed to a worse fate than were the Hebrew infants. What is to be done to save them?

## Looks Like Pleasant Farm

## But England's Laper Colony Is Lonely Isolated Spot

England's laper colony is one of the most lonely and isolated spots in that country. Travellers on these remote roads pass a collection of small houses in the heart of fields. There are cows, and poultry, and a dog that barks fiercely. It looks like a pleasant small holding, but the inhabitants of the houses are lepers. They are British men, women and children who have been abroad, that who are in perfect health have contracted leprosy. An Anglican sisterhood gives them the most tender care.

## Take Buffalo Census

A census of the buffalo herds in the various national parks of Canada taken in December, 1935, shows that in Buffalo Park, Wainwright, there were 8,373 buffalo; in Elk Island Park, 446; and in Banff Park, 23.

## Sounded Too Familiar

## London Zoo Reaches Centenary

## Started With Two Birds Now Has Three Thousand Animals

Although the annual general meeting of the Zoological Society this year was only the ninety-seventh, the first remains on that the London Zoo had been in existence exactly one hundred years.

Centenary celebrations, however will not take place until 1939, as, although the society started in 1826, it was not until 1829 that a royal charter was granted.

There are more than 3,000 animals in the zoo today; a hundred years ago a start was made with a griffin vulture and a white-headed eagle, with an Indian deer to follow. Joshua Brookes, a famous anatomist, presented the vulture, which for nearly forty years was known as Dr. Brookes.

The vast mass of food officially consumed in the zoo are enormous. There is no computation of the tonnage of buns, bananas, turnips, potatoes, treacle, fish, fowls' heads, rabbits' legs and other bit-bits daily thrown to the inmates by the public.

The report records, among a mass of miscellaneous foods given at regular meals, the following:

Hay, 157 tons; clover, 108 tons, oats, 6,880 bushels; rolled oats, 608 pounds; horses, 441, or approximately 220 1/2 tons; goats, 123; poultry, 1 ton 2 cwt.; herrings and whiting, 41 tons 5 cwt.; shrimps, 1,525 lbs.

## Coming To Canada

Fifty-six single young men who have undergone six months training in agricultural work at the ministry of labor's training centers at Brandon and Clonon in Suffolk, left for Canada recently on the Empress of France. They will proceed to Winnipeg where they will be placed on selected farms.

## Sell Fowl By Auction

Selling dressed fowls by auction is a recently added feature of Johannesburg Municipal Market. They are auctioned in braces so that the ordinary householder can bid for them. In addition, of course, there are the usual sales of live poultry.

The first printing press in America was established in Mexico, about 1563.

## WHEN USING WILSON'S FLY PADS

READ DIRECTIONS  
CAREFULLY AND  
FOLLOW THEM  
EXACTLY

This is it—Darken the room as much as possible, close the windows, raise one of the blinds where the sun shines in, about eight inches, place one of Wilson's Fly Pads as possible on the window ledge where the light is strong, leave the room closed for two or three hours, then sweep up the flies and burn them. See illustration below.

Put the plates away out of the reach of children until required in another room.

## The right way to use Wilson's Fly Pads

Strange, Romantic Love Adventures of the Flapper you know

## Joanna

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

### THE STORY THUS FAR

Joanna, a pretty, ultra-modern, shop girl is told by her employer that she has been given a million dollars to spend by an unknown benefactor. She is not even to know his name, there are no "conditions" to meet before she can get the money. Nothing more than this can be gained from banker Eggleston, nor his suave, man-about-town nephew, Brandon, who informs her that he intends to make love to her while helping her write her first check. Dazed by this sudden deluge of wealth, hurt because her friends and acquaintances will not believe in her, she returns home happy after an orgy of buying to find John, her old-fashioned sweetheart and Brandon awaiting her. Brandon is suave, John silent—almost morose. After Brandon leaves, John informs Joanna that he does not want to live, she is angry by the money honorably.

### CHAPTER VIII.—(Continued)

With her awakening to the new day—the first full day of her new estate, varying emotions rushed in confusion into Joanna's mind. Her first thought was John. With it came the surge of recollection of the scene in the "drawing room only." She winced at the sudden memory. She wouldn't lose a minute—before he went to his work! She hurried her hand in the hair on the pillow beside her. George had stubbornly shut her eyes, refusing to be ordered up by any housemaid, but opened them wide at the viciousness of Joanna's tug at her shining head.

"Pile out and get dressed," Joanna

## PAINS ALL OVER BODY

Two More Cases of Feminine Illness Relieved by Lydia E. Pinkham's Vegetable Compound

Barrington, N. S.—"I had terrible feelings, headaches, back and side aches and pains all over my body. I would have to go to bed every month and nothing would do me good. My husband and my father did my work for me as I have, two children and we have quite a big place. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and then got a little book about it through the mail, and my husband sent to Eaton's and got me a bottle, and then we got more from the store. I am feeling fine now and do all my work and am able to go out around more. I tell my friends it is Lydia E. Pinkham's Vegetable Compound that makes me feel so well."—Mrs. Victoria Richardson, Barrington, Nova Scotia.

### Dull Pains In Back

St. Thomas, Ont.—"I took four bottles of Lydia E. Pinkham's Vegetable Compound and four grains of relief from the dull, heavy pains in the small of my back and the weakness from which I suffered for five years after my boy was born. After taking the Vegetable Compound and using Lydia E. Pinkham's Back and Stomach Remedy I am feeling better than I have for the past seven years, and advise my friends to take it."—Mrs. F. P. Moore, 48 Moore Street, St. Thomas, Ont. C.

W. N. U. 1636

## There is only one way to kill all the Flies

"I don't want you to call him. Don't be silly. I was only joking. Just get the breakfast. Take a five hundred dollar bill and tell me what different men look like when they have it."

Which George partly did. Her report was hysterically satisfactory, ascribed only by the discovery that she'd been short-changed ten dollars out of the twenty-dollar bill she had finally given him.

"Let him keep it," Joanna ordered, shortly. "I'll be something to remind him of the next time he refused you credit."

"If you get me those duds you've promised me," George returned, "I'll get my herring and dill pickles at the Ritz. See if I don't. All I need is clothes to get out of the delicatessen class."

Joanna shot a keen look at her, but said nothing. John had turned her soul against preaching.

The beauticians that are suitable to new street tailors, Joanna's which she had worn the afternoon before, and her preliminary gift to George, which George had blossomed in for the evening, are not half overestimated. It was well toward noon when the two girls settled in their taxi. And then George had to wait, a block from the store, where she would not be detected as having broken neither a leg nor a neck, while Joanna presented herself to Mr. Graydon's secretary. She just wanted to talk to him again, she explained, and to let him see her.

The "boss" of yesterday made her understand that he was her "friend" of today, and all days. He thanked her, greatly, for stopping in, and hoped that she would come in often. But he would not give her the thing she asked. Adyde. Something that would be a hint to her of what was expected of her; of what she should do to carry out the wishes, or the plans, of her unknown benefactor.

"I have been cautioned by your banker, Eggleston," he said, "that I must not pretend to advise you. Not now, at any rate. Mr. Eggleston is emphatic in saying that a condition that went with the money was that you solve your own problems. After a while, perhaps, some of the severity of the ban may be lifted. Just now I mustn't interfere."

"Am I just to take all this money and go out and spend it, then?" Joanna asked.

"Just go out and spend it—somehow. I suppose that is one way of repeating that you may do with it whatever you wish."

So naturally that she did not know she was doing it, she began to tell him about Cohen and Mrs. Adams and John. Suddenly she hesitated and was abashed. "But all that doesn't interest you, does it?" she apologized.

The gray man had been watching her intently. He reassured her quickly. "On the contrary, Joanna, that is just what I mean, it does interest me tremendously. Won't you go on—about John? You straightened him out, I hope and he's quite all right, now?"

"No," Joanna replied, her voice quivering a little. "I didn't, and I don't. I'm afraid it's all crooked in his mind."

"What are you going to do about it?"

"Just let it stay crooked, I guess. Crooked things that ought to be straight, must get that way by the time I'm thirty."

"I think, if they have to be hammered out, they're only make-believe." She was silent, for a minute, then added so suddenly that Graydon was sure she hoped to catch him off his guard.

"What would you do about it if you were in my place?"

He smiled. "That is one of the very things I mustn't advise you about. But I shall want to know, very sincerely, when it begins to straighten out—and see what happens then. I shall be interested in John."

"Well, that's more than I am, right now," the girl retorted. She was restless under the keen scrutiny with which Graydon was suddenly observing her. She was still uncomfortable when she also spoke to him. She had intended to ask him what part in her affairs he thought Brandon was to play. But she concluded that she would have to find that out for herself, too. It was then that she resolved that perhaps Brandon could show her the way to go, as well—better, perhaps, than John.

(To be continued)

### Chinese Believe Bones Have Medicinal Value

Ground Fossilized Bones Mixed With Grease Bring Fabulous Prices

The search in Asia by the expedition of the American Museum of Natural History and the Field Museum of Chicago under the leadership of Roy Chapman Andrews in the hope of finding the cradle of man has led, through a strange coincidence, to competition with an old established Chinese business. Not that the competition endangers a native industry, for the bone supply is as plentiful as the number of persons who have faith in the medical value of powdered fossilized bones.

Dragon bones, so-called, are found in many parts of China, but it is only in the province of Szechwan that scientists have come into competition with the industry, and then only in small degree, and in the vicinity of the Yangtze gorges, now becoming so well-known to tourists who have the leisure to make a 1,200-mile water trip inland from the sea. The dragon bones bring \$6 a hundred pounds, but are used for medicinal purposes and legend of cures brings their weight in gold in the apothecary shops after they have been ground to powder and mixed with grease or a little phosphate. Dragon bone medicine is a cure-for-all in China and is a story in itself.

### Interesting Variety Of Plants

Seed Is Sent To New Gardens, England, From Explorers in Different Parts Of The World

In the "Gardens of England," a variety of plants may be seen grown from seed sent home by explorers in different parts of the world. There are yellow and purple irises found by the botanist with the Mount Forest expedition; blue poppies sent home from Tibet by Mr. Kingston Ward, who recently returned from a year of plant exploring with Lord Cawdor; a yellow saxifraga sent by Mr. Forest, the plant explorer, who is now in China, and new gentians from the collection of Mr. Beck, the American plant explorer, who is not long back from exploring the northern part of Western China. There are also numerous new primulas sent by all the explorers, but as they are found growing at an altitude of 10,000 ft. to 15,000 ft., they do not all like the English climate.

### Minard's Liniment for Rheumatism

Designer of Norge Honored

Cot. Umberto Nobile, who designed the dirigible Norge and piloted it across the North Pole from Europe to Alaska, has been made a general of the Italian air service in command of all its operations.

The musician who plays by note has to face the music.

### Why Suffer With Itching Rashes

When a warm bath with Cuticura Soap and application of Cuticura Ointment will afford immediate relief and point to permanent skin health in most cases when all else fails.

Sample Bath Free by Mail. Address: Canadian Cuticura Soap Co., Montreal, Que. Cuticura Ointment 25c. Cuticura Soap 25c.

### Gradually Clearing Scape Flow

Cruiser "Hindenburg," When Scrapped Will More Than Pay Salvage Cost

Bank by her crew at Scape Flow six years ago the German cruiser "Hindenburg" will be about again in a few months. How is it to be done, and what will happen then?

Already twenty-one smaller warships have been brought to the surface by means of wires passed under them from floating docks, but the "Hindenburg," with a tonnage of 27,000, is much too heavy for that. She is to be made to rise of her own accord by having the water pumped out of her.

To do this all her portholes and all the eight "sea cocks" the Germans opened to sink her, will have to be covered with patches of concrete or steel. To get at the sea cocks, which are round holes in her hull, two feet across, it will be necessary to make tunnels in the sea on which she lies and to scrape away the barnacles and seaweed that cover her bottom.

All this will take twelve divers forty months, but when they have done forty pumps will pump out some thing like 60,000 tons of water in twelve hours, and the "Hindenburg" will then slowly rise to the surface.

And what then? She will be run aground and broken up for scrap, the value of which will be more than worth the cost. After that the remaining big ships will be raised, at the rate of two a year, till Scape Flow is clear of them.

### NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armstrong, R.R. 1, South Monaghan, Ont., says:—"We have three fine, healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and coughs; soothe teething aches. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

### Had A Real Grievance

Train Being Late Extended Length Of Sunday Service

The railroad superintendent, after beckoning his visitor to a chair, invited him to outline his complaint. "I wish you would tell the engineer on the express train, because through Centre to quit whistling Sunday mornings just before noon," said the visitor. "That's impossible," replied the official. "Why do you make such a strange request?" "Well, you see," explained the visitor, "our minister preaches until he hears the whistle blow, and your train was twenty minutes late last Sunday."

Many mothers have reason to bless Mother's Own Worm Expeller, because it has relieved the little ones of suffering and made them healthy.

### Detecting Crimes By Dust

Clever Detective Resorts To Use of Vacuum Cleaner

Probably the cleverest living detective is Professor Logard of Lyons, whose feats are the wonder of all Europe. Many of them, curiously enough, have been performed with the help of a vacuum cleaner, with which he draws specks of dust, etc., from the clothing of suspected persons; and these microscopic clues have already sent dozens of murderers to the gallows.

### Ricksha Pulling Hard Work

Men Following This Occupation Wear Out In Five Years

Sociologists looking into the question in Peking, China, have determined that the business career of those furnishing the motive power for the man-drawn ricksha is only five years. Since the endurance period of the arduous work in and out of employment there are from 40,000 to 50,000 ricksha men in the metropolitan district. Street cars are slow to gain popularity.

### Good Measure

Mr. John Robson went to KANANA City last week with a carload of hogs. Several of his neighbors went in together to fill up the car.

Many a poor woman who works sixteen hours a day has a husband who grows old how much it costs him to support her.

## Borden's ST. CHARLES EVAPORATED MILK

Rich and good—always pure—fresh cows' milk sealed in cans

Use it wherever the recipe calls for milk

### Little Helps For This Week

Cause me to know the way whereto I should walk.—Ps. cxliii, 8.

Then a voice within his breast Whispered audible and clear, As if to the outward ear, "Do thy duty, that is best, Leave unto thy Lord the rest."

—Henry Wadsworth Longfellow.

Keep close to duty. Never mind the future, if only you have peace of conscience; if you feel yourself reconciled, and in harmony with the order of things. Do what you ought to do; the rest is God's affair. It is for Him to know what is best.

—Henri Frederic Amiel.

Let us stand by our duty, fearlessly and effectively.

—Abraham Lincoln.

For Both Home and Stable—There is a good deal of similarity, physically speaking, between human beings and the lower animals. Both are subject to many ailments arising from inflammation and to all manner of cuts and bruises. Dr. Thomas' Electric Oil is an entirely reliable remedy for such ailments and mishaps in both human beings and the lower orders of animals.

### Livestock Improvement Train

Demonstration Car, Lecture and Motion Picture Car to Tour Saskatchewan

Under the auspices of the Provincial Department of Agriculture, the Cattle Breeders' Association, Moose Jaw Livestock Exchange and the Canadian Pacific Railway, a Livestock Improvement train will be operated in the province of Saskatchewan for the fifth season. The train will consist of eight cars, three of purebred bulls, one of butcher steers, one of dairy cattle, one demonstration car and one lecture and motion picture car. The sale of good stock is the principal object of the train, but lectures and motion pictures will be provided for educational purposes.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

### Gold Finder Died Poor

After making and losing several fortunes, James Marshall, who was first to discover gold in California, died in a hovel and in a lonely cabin, close to the spot where he made his epochal discovery of gold 37 years before.

You can almost see the cracks in the walls of your home when they attempt to sing.

**Items of Local and General Interest**

Mr. W. J. Fisher was a Calgary visitor during the week.

The Sells-Floto circus is booked to stop in Blairmore early in August.

It costs now \$150 to be born in a hospital. But what else is one to do?

The Heritage Bros' circus is exhibiting here this afternoon and evening.

Miss Benvenuta Pozzi is spending her summer vacation at her home here.

Lindsay Carter returned home from Seattle on Wednesday night of last week.

Frequent rains on the prairies have made the crops look the best in years.

Eddie McDonald, of the office of the Crows' Nest Pass Motors, has been appointed a commissioner for affidavits.

A slight fire occurred in a small residence on Cement Street yesterday. The fire brigade responded in good time.

A double drowning fatality occurred near Creston on Monday evening, in which Mr. and Mrs. W. H. Goblett lost their lives.

Jollett Houbregs, of the local senior Tuxis, defeated Hincks, southern Alberta champion, in tennis at Coleman on July 1st.

Miss Flora Warner, who has been teaching school at Rainier, Alberta, is spending the summer holidays here with her parents, Mr. and Mrs. J. R. Warner.

The annual provincial convention of the Elks takes place in Calgary today. Blairmore is represented by Messrs. George Meffan and W. J. Bartlett.

A recent issue of the Salvation Army War Cry contains a question: "Where Will You Spend Eternity?" The rest of the issue is devoted to a write-up of Dauphin, Manitoba, under the caption: "Come to Dauphin!"

The local members of the Knights of Pythias and Pythian Sisters held their annual memorial service in the Lodge Hall on Sunday last, where they were addressed by Rev. Bro. Marr, of Calgary. The choir of the United church was in attendance.

Building through Western Canada is particularly active this year. Permits issued so far this year in Winnipeg up to the end of June totalled approximately eight million dollars, as compared with two and a half million for the first six months of last year.

Monday's mail brought a letter from the farmer on whose place we had a picnic recently. He didn't say anything mean about us. He said he hoped it wouldn't rain next Sunday, because if it did it would prevent him from returning the compliment on our lawn.

Pat Hope, who a month ago suffered the loss of a leg through falling to successfully board a moving freight train near the Blairmore depot, came out of the Coleman hospital on Tuesday of last week and joined his pal here.

The most regrettable feature of the unfortunate accident was that Hope's pal, because he had admitted stealing a short ride on a freight train, was sentenced to serve a month in jail at Blairmore at a time when he would like to do a humane act by helping out his pal. The public have repeatedly questioned the justice in this case. The lad Hope had paid the supremest penalty necessary for both and the pair were practically driven to stealing a ride in the search of honest employment.

Dr. J. A. Tolmie is leaving Coleman on August 1st for Vancouver.

Pincher Creek will open a fourth high school room for the fall term.

Principal and Mrs. McPherson are spending their summer vacation at Milk River.

The only thing a woman can't tell is what another woman driver is going to do next.

About the only bird we know who leads a consistently upright life is the woodpecker.

Phil Christophers, newly-elected M. L. A., was a visitor to Edmonton during the week.

Mr. Harry Meade, of the Bellevue Bakery, was a Calgary stampede visitor during the week.

Owing to the inclemency of the weather on Dominion Day, the K.P. picnic programme had to be carried out in the Lodge Hall.

Mr. and Mrs. Gwilym Evans are motoring over the Calgary-Banff-Windermere highway in company with the McVey family.

W. W. Scott and family have during the week moved into the Wilson residence, at the corner of State Street and Tenth Avenue.

Miss Margaret Wiswell, who has been teaching at Taber, spent a few days in town last week with her parents and sister, Mrs. A. May.

An exchange remarks: "Counterfeiters of \$10.00 bills are believed to have bleached the \$1.00 bills to get the paper. These fade fast enough without bleaching."

The children of the Frank public school held their annual picnic on Thursday last, despite the rain storm. The basement of the old Sanatorium hotel was made use of and a good time was had by the kiddies.

Miss Mary Kroil, who has been teaching in a rural school north of Brocket, arrived home to Frank for the holidays last week. Miss Kroil is spending a few days this week with her sisters in Calgary and incidentally attending the stampede.

Bill Lornie, Blairmore's town electrician, is enjoying a trip over the Banff-Windermere trail. Bill entertained everything in Calgary, and you can't blame him for that—he's from Scotland. Ask him about the high cost of living as far as close shaves are concerned.

The marriage of Mr. Jack Coughlin, of High River, to Miss Walker, of Calgary and formerly of Coleman, was solemnized at St. Anne's church on Tuesday by the Rev. Father Morlarty. Following the marriage ceremony, a reception was held at the home of Mrs. Lamey, sister of the groom, at Bellevue.

Rev. and Mrs. W. T. Young had as visitors for a few days, her mother, Mrs. Aiken, her sister, Mrs. Stuart, and Mr. Stuart, Mr. and Mrs. McGibbon, of Millet, Alberta, and Mrs. Eakin, Mrs. Young's aunt, of Thorold, Ontario. The party arrived by motor and continued their journey westward the early part of the week.

We know of no alhier legislation than that put into force in British Columbia recently, which requires commercial travellers travelling in from Alberta by car to take out car and chauffeur's licenses before they are allowed to do business in our neighboring province. As a result, most of such travellers are leaving their cars at Blairmore, Coleman or Crows' Nest and covering their B.C. territory by train, and at even less cost to themselves, thus avoiding such licenses. There is talk of the Alberta government introducing retaliatory measures.

Synthetic flappers come easy—just a little re-arrangement of chemicals.

John T. Stirling, of the provincial department of mines, was a visitor to The Pass on Wednesday.

The Manchester Guardian declares that Premier King was right in his constitutional contention.

Those balloon trousers would be alright for campers. No need of taking other blankets with you.

The season is here when the man who can't afford to travel enjoys it more than the man who can.

The guy who said the lesser could not contain the greater had never worked in a woman's shoe store.

Mrs. Mary Sartoris, who has been attending school at Calgary, returned home for the holidays on July 1st.

FORD TOURING CAR For Sale Cheap. Newly overhauled and painted. Tyres. Blairmore Vulcanizing & Battery Station, W. M. Bush. [JS-15]

J. W. McDonald, of Macleod, is spoken of as a probable Liberal candidate for the Macleod federal constituency in the forthcoming election.

Mr. and Mrs. W. McVey and daughters Sarah and Jessie left Monday by motor over the Banff-Windermere route. They will take in the Calgary stampede before returning.

Two Calgary men were found guilty of making and issuing counterfeit notes and were sentenced to six years' imprisonment. Notes totalling two million dollars were found in their possession.

It is understood that G. G. Coote, Progressive, Macleod, in the parliament just dissolved, has notified his political conferees that he will not be a candidate in the federal election this year. Mr. Coote has represented Macleod in the house of commons since 1921.—Ex.

An amendment to the Ontario game and fisheries act stipulates that every resident of Ontario, not under fifteen years of age, must be licensed before he is allowed the use of firearms for hunting purposes. A fee of \$1.75 will be charged for the necessary license, together with a fee of 25 cents for issuing same.

An evangelist was to appear in an Ontario pulpit on Sunday evening last and his subject was announced in the papers as "Christ's Second Coming—How, When, Why?" The preacher rose to the pulpit and introduced himself thus: "I am here, just came by Ford car and am short of cash. The offering will now be taken."

Russell Scott, former Canadian stock salesman, who escaped the gallows almost by minutes several times, has been sentenced to hang on October 15th. Scott was convicted of murdering Joseph Maurer, a drug clerk, who was shot and killed in what the state charged was a holdup engineered by Scott and his brother.

There was a pretty good turnout to the whist drive on Wednesday night of last week in the Lodge Hall. Prizes were won as follows: Ladies' first, Miss Kathleen Tompkins; second, Mrs. Ralph Perry; consolation, Mrs. Moseley. Gents' first, Mr. Joseph Howe; second, Mr. Schweigert; consolation, Mrs. Joseph Howe.

Mr. and Mrs. C. J. Tompkins returned Wednesday morning from Vancouver, via Calgary. Mr. Tompkins attended a most successful convention of the Sun Life Assurance Company representatives at the coast city, and was there highly commended for the success he has attained as an agent of the company, he having attained second place among the western provincial agents for the past year.
